INTRODUCTION

This report is a special issue of the Bargaining Information Series showing wage rates for selected occupations under Ontario nursing home and homes for the aged agreements. It is similar to the publication "Hourly Wage Rates for Selected Occupations Under Hospital Agreements in Ontario 1975" issued in October 1975. There were 121 agreements for nursing homes and homes for the aged on file in the Collective Agreements Library as of September 30, 1975. Eighty-six of these agreements (for 7,276 employees) covering at least one of the selected occupations were studied for this report. Excluded are 17 agreements which have expired and have not yet been renewed and 18 agreements covering only nurses, operating engineers, and part-time employees.

The report consists of ten tables, each of which sets out the bargained wage rates in one of the economic regions of the Province. Some agreements cover more than one home. Each home is listed separately in the appropriate region table. The report was prepared by Diana Chung under the general direction of Beth Kendall Jess. Further information may be obtained from Mrs. Chung at 965-6101.

Notes on the Tables

Home. The homes covered by the agreements from which the wage rates were taken are listed in alphabetical order of their location within each economic region.

Type of Home. The letter A indicates a home for the aged. The letters NH indicate a nursing home.

Bed Size. Figures on bed size were taken from the Canadian Hospital Directory, July 1975. For those homes that were not listed in the above-mentioned publication, the figures were obtained from the homes directly.

Wage Rates. The wage rates reported are those that were in effect on July 1, 1975 with all subsequent increases that are listed in the agreements. For each occupation covered, the minimum and maximum or a single rate of pay is shown. Where a single rate is given in the agreement, it is shown in the "Max" column. To facilitate comparison, where wages are given in the agreements as weekly, bi-weekly or monthly, they have been converted to an hourly rate. Quite a number of homes for the aged and nursing homes have had their wage rates re-opened in 1975. Every effort was made to obtain the new wage rates through contacting the unions or homes involved. However, there might have been one or two cases that did not come to our attention.

Aide. This is the lowest rate in the agreement. Included are rates for classifications specified as domestic; housekeeping, kitchen or laundry helper; maid; basic female rate; light duty helper.

Porter-cleaner. This classification includes the rates specified as porter, cleaner, janitor, basic male rate; heavy duty helper.

Maintenance. This is the highest rate in the agreement which is specifically called "maintenance" and includes the rates for maintenance men and maintenance mechanics. Maintenance engineer and maintenance helper were excluded as not being comparable occupations. In order to clarify those rates selected, the classification of maintenance men as I or II, as given in the agreement is indicated in the tables by the appropriate numbers or letters in parenthesis. A maintenance mechanic is further identified by an asterisk. For example, the rates for maintenance man I and maintenance mechanic I, would be shown as "5.543(1)"; "5.543*(1)".
